

DEC 22 1966

50-247  
Hessing

Dear Mr. Bogart:

In my letter to you of October 19, 1966, I advised that the Initial Decision of the Atomic Safety and Licensing Board on the construction permit application for Indian Point Station Unit No. 2 would be personally reviewed by all members of the Commission.

As you know, the Commission issued its decision in this matter on December 20, 1966. I am sure you will appreciate that in reaching our decision we gave the entire proceeding our careful and personal attention.

We are, I can assure you, fully mindful of the interest that you have shown here. If you would find it helpful, I will be happy to arrange for members of our regulatory staff to meet with you to explain both the staff's safety evaluation in this matter and the AEC regulatory program in general.

Sincerely yours,

/s/ Glenn T. Seaborg
