In the Matter of Consolidated Edison Company of New York, Inc.
Indian Point Nuclear Generating Unit No. 2
Docket No. 50-247

Gentlemen:

The AEC regulatory staff is presently preparing responses to the questions raised by the Board during the March 24, 1971 session of the hearing in the captioned matter.

We also are preparing responses to the Round Two informal interrogatories submitted by intervenor Citizens Committee for the Protection of the Environment.

With one exception, we plan to file our responses prior to the resumption of the hearing on May 13.

We are conducting a reevaluation of the effectiveness of the emergency core cooling system for the Indian Point Nuclear Generating Unit No. 2. We will inform the Board at a later date when we anticipate submitting our responses to questions on this subject.

Sincerely,

Myron Karman
Counsel for AEC Regulatory Staff
