Subject: James A. FitzPatrick Nuclear Power Plant (JAFNPP) – ACCEPTANCE OF REQUESTED LICENSING ACTION RE: Request for Exemption from Appendix R Requirements Based on Manual Actions (TAC NO. ME0727)

The Fire Protection Branch (AFPB), Division of Risk Assessment has reviewed the information provided by Entergy Nuclear Operations Inc., including the letters dated November 17 and December 11, 2009, responding to the request for additional information (RAI), and has determined that additional information is needed to complete our review. The RAI is described below:

Follow-up RAI: In the licensee's submission dated March 30, 2009, the licensee stated that the cables in Fire Area 10 are IEEE-383 qualified, or equivalent. Please state whether the cables in questions are thermoplastic or thermoset.

Please respond to this request ASAP, either by e-mail or by supplemental submission, whichever is quickest.

Please contact me, if you have any questions.

Thanks,

Bhalchandra K. Vaidya
