Re: Consolidated Edison Company  
of New York (Indian Point  
Unit No. 2) Docket No. 50-247

Dear Mr. Chairman:

The Citizens Committee for the Protection of the Environment suggests that the hearings in January, in addition to exploration by the Board of the environmental aspects of applicant's request for a 50% testing license, could also include any cross-examination by us of the matters relating to plant security and the fire covered in the interrogatories filed following the December 14th hearing. We could also have a further discussion on the official notice question and the present status of the national ECCS hearing. Finally, we could work out scheduling of further hearings for February.

Sincerely,

Anthony Z. Roisman  
Counsel for Citizens Committee  
for the Protection of the  
Environment and Environmental  
Defense Fund
