INDIAN POINT NO. 2 HEARING

A continuation of the IP 2 hearing was held on December 14, 1971. This was a one day session. The hearing has been recessed until January 11, 1972.

Con Ed entered into the record the report, which was submitted to DRL on December 6, 1971, relating to the PAB fire. Some cross examination, of the Con Ed staff, was conducted relative to the inspection, testing, acceptability of splicing, and adequacy of separation of safeguards cables. The ASLB chairman, (Jensch) interrupted the cross examination on the basis that passing of information between the parties should be handled outside of the hearing session.

The interviewer made an attempt to introduce several ORNL, INC., etc. documents and the Vermont Yankee Emergency Plan into the record. Con Ed opposed on the basis that the context of these items were not established fact, was not sponsored by the author, and contained certain disclaimer statements. This subject received considerable procedural debate.

The Staff Environmental report for 50 percent power was not available. Indications were that issuance is expected in the next week. Con Ed entered their environmental report into the record. New York State entered their Water Quality Standards into the record.

Con Ed entered a document relating to their personnel selection program into the record. Cross examination was limited and is to be handled as interratories.

An "In Camera" session on security was held. The staff entered into the record, testimony relative to required completion of various aspects of the proposed security program. Compliance was involved in some cross examination on this item, in that Dudley Thompson was
