Docket 50-247

Gentlemen:

There is enclosed a document entitled "Responses of Applicant to Questions of the Atomic Safety and Licensing Board at the November 17, 1971 Hearing Session," dated December 8, 1971. Applicant intends to introduce this document in evidence at the hearing session next week.

At the November 17th session Chairman Jensch requested a written answer to his question on the thermal plume (Tr. p. 4082). In response to this request, Applicant respectfully refers the Board to Appendix O of the Environmental Report Supplement, filed September 9, 1971, which contains numerous figures depicting the thermal plume under various tidal conditions. This appendix should
