Re: Consolidated Edison Company
of New York, Inc.
Indian Point Unit No. 2
Docket No. 50-247

Gentlemen:

Enclosed for your review is a copy of the document entitled "Fuel Densification -- Indian Point Nuclear Generating Station Unit No. 2," dated January 1973. Since this document contains proprietary material of Westinghouse Electric Corporation, an application to withhold this document from the public record has been submitted to the Commission. Applicant requests that the proprietary fuel densification report be reviewed for appropriate use only in connection with the above-captioned proceeding. In addition, Applicant requests that the parties return those copies of the document made available pursuant to agreement when their review is complete. A non-proprietary version of the fuel densification report is also enclosed.

Both the proprietary and non-proprietary reports were transmitted to the Commission yesterday by a letter to Mr. Giambusso from Mr. Newman, dated January 18, 1973. A copy of the transmittal letter, together with a copy of the application to withhold, is also enclosed.

Very truly yours,
