Re: Indian Point #2

OFFICE OF  
HEARING EXAMINERS

Dear Chairman:

It has recently come to our attention that the Atomic Safety and Licensing Board conducting the hearing for an operating license for the Indian Point #2 Nuclear Power Plant of Consolidated Edison Company is considering requesting Consolidated Edison Company to install cooling towers at its Indian Point site. We have recently learned that these towers would be enormous in size, by far the tallest structures in the Village of Buchanan and the surrounding communities.

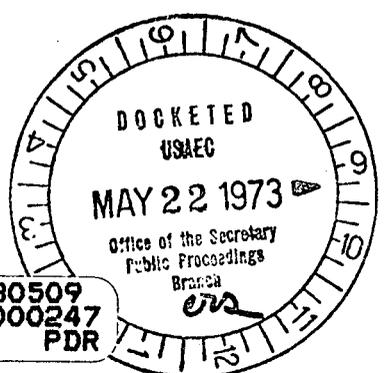

Please be advised that our zoning ordinance severely limits the height of structures to be erected within our village, and particularly, along the shores of the Hudson. This ordinance has already been enforced in limiting the height of the Georgia-Pacific installation, including the height of the conveyor belt towers to their stone storage facility.

Under the circumstances, we feel that only application by Consolidated Edison Company to build cooling towers with the dimensions required for the plans now completed or under construction would be acted upon unfavorably by the Planning Board of the Village of Buchanan.

We respectfully request that this statement be accepted by you as a limited appearance of the Village of Buchanan.

Respectfully yours,  
*George E. Segnit*  
George E. Segnit Mayor  
Village of Buchanan
