A. Giambusso, Deputy Director for Reactor Projects  
Directorate of Licensing

CONSOLIDATED EDISON COMPANY (INDIAN POINT 2) - DOCKET NO. 50-247  
FULL POWER LICENSE

Based on the attached facsimile transmittal from RO:I, we conclude the following:

1. Assurance is provided that the loss of instrument air to safety equipment by freezeup of the instrument air dryers will be prevented through actions taken by the licensee.
2. No unresolved issues that would prevent licensing for full term at full power remain.
