SUBJECT: ORISE CONTRACT NO. DE-AC05-06OR23100
REVISED LETTER REPORT FOR ANALYTICAL RESULTS FOR FOUR
SOIL AND TWO WATER SAMPLES FROM AMERICAN RADIOLABELED
CHEMICALS IN MARYLAND HEIGHTS, MISSOURI;
[INSPECTION REPORT NO. 030-20567/2009-02] (RFTA NO. 10-001)
DCN: 2006-LR-01-1

Dear Ms. Streit:

The Oak Ridge Institute for Science and Education (ORISE) received four soil samples and two water samples on November 6, 2009 from American Radiolabeled Chemicals (ARC) in Maryland Heights, MO. The samples were analyzed according to the 303 form supplied with the samples. The sample identification numbers are presented in Table 1. The soil and water samples were analyzed for tritium (H-3) and carbon-14 (C-14) by liquid scintillation analysis. The H-3 results for the soil and water samples are presented in Table 2 and 3. The C-14 results for the soil and water samples are presented in Table 4 and 5. The pertinent procedure references are included with the data tables.

ORISE's Quality Control (QC) requirements were met for these analyses. The QC files are available for your review upon request.

The original letter dated December 31, 2009 contained an extra page of data tables for the tritium results. All data were presented correctly on both sets of tables, however, the extra page of data tables was inadvertently left in the letter report. The extra page has been removed from the letter report. We apologize for any inconvenience this mistake may have caused.

My contact information is listed below. You may also contact Wade Ivey at 865.576.9184 with any questions or comments.

Sincerely,

 Dale Condra, Manager
 Laboratory
