Temporary Job Site Inspection _____

PROGRAM SCOPE

The licensee is a civil engineering firm located in Perryville, Missouri. They perform soil density and asphalt testing in greater in the Perryville, Missouri area. The licensee has one Troxler model 3440 series gauge. The gauge is normally stored at the licensee's facility. The licensee does not perform any service or maintenance activities on the gauge. The licensee employees one gauge user who has completed the manufacturer's training.

Performance Observations

There were no temporary job sites at the time of the inspection. Interviews of licensee personnel indicated an adequate level of knowledge of radiation safety. The inspector reviewed the shipping papers which were in order.

Independent surveys of the gauge storage area indicated that there were two locks securing the storage area. The one user had minimal exposures. The licensee secures the gauge in an open bed pick up truck using two locks and two chains. The gauge case was also locked.
