

March 1, 1976

Honorable Nelson Rockefeller,
Vice-President of the United States
United States Senate
Washington, D. C. 20500

Dear Vice-President Rockefeller:

We believe that nuclear power plants are a clear and present danger to the health and welfare of living things.

In particular, the Indian Point complex presents a multiplicity of problems which endanger the health and safety of people for miles around. This has been substantiated by Robert Pollard, project engineer for Indian Point, who resigned from the N. R. C.

Therefore, WE CALL UPON Vice-President Rockefeller, as well as President Ford and Governor Carey, to use his power to close Indian Point.

WE CALL UPON the Nuclear Regulatory Commission to revoke the licenses of the Indian Point facilities.

WE CALL UPON our legislators and officials at every level to enact an immediate moratorium on both existing and on future construction of such plants.

This government and its people must stop the plague of nuclear power plants. The start can be made in New York State by SHUTTING DOWN INDIAN POINT.

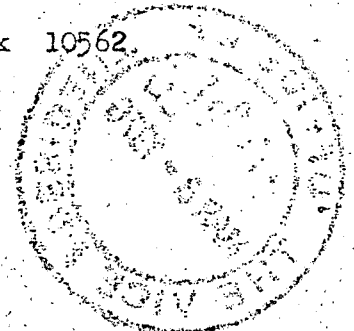

Sincerely,

Erica Knight
