Subject: RAI response deficient

(NOTE: This will be used as the Documents Title in ADAMS)

I spoke to Mr. Rhoe and explained that the answer to the RAI was deficient. I explained that there were a few isotopes that were over the 120 day half life and he had to specify exactly what he wanted us to remove from the license with the explanation why we could remove it. He said he was unaware that some activated products were over the 120 days.
