Subject: Corrective and Transfer Report Regarding One Tritium Exit Sign

Dear Dr. Miller:

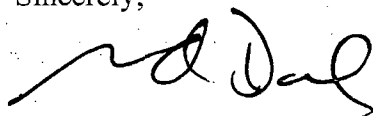

Pursuant to 10 CFR § 31.5(a), Wal-Mart Stores, Inc. ("Wal-Mart") is a general licensee of the NRC because it possesses and uses byproduct material in the form of tritium exit signs ("TES"). On January 7, 2009, Wal-Mart reported 14 TES lost in the state of Delaware. Wal-Mart has since located one of those TES. As such, by receipt of this letter, the referenced loss report for this TES is modified accordingly.

On April 30, 2009, Wal-Mart transferred the TES described below from Wal-Mart Store # 5039 at 263 Wal-Mart Drive, Camden, Delaware 19934, to Isolite Corporation, which took possession of the device at the Wal-Mart store location. Accordingly, pursuant to 10 CFR § 31.5(c)(8)(ii), Wal-Mart provides this notice of that transfer.
