RE: NRC Form 314 dated November 13, 2009  
Control Number 318646

Dear Mr. Macatangay:

In regard to closing out our license, we misunderstood the section of the form entitled "Mail All Future Correspondence Regarding This License To" to mean the transferee. This section should have read, and our address remains:

63 Blair Avenue  
Camdenton, MO 65020

Also, Krehbiel Engineering has never stored a leaking source, or leaking portable gauge, at this or any other location.

Please find attached the requested letter from Mr. Bari Chase with Schultz and Summers.

Respectfully submitted,

RE: Response to Nuclear Gauge SN. 27934 Purchase.

Dear Mr. Krehbiel:

Thank you for the nuclear gauge (sn. 27934) that I pick up on November 13, 2009. I was amazed at the excellent care and quality that had been taken of the gauge. We since have sent the gauge to Troxler for calibration and a check up. We now have the gauge in our satellite laboratory and it is working fine.

Very truly yours,

Schultz Engineering Services, Inc.
