U.S. Regulatory Commissioner

Dear Sirs:

11/24/80

- I am writing to express our views that:
- 1- All 3 Indian Point Reactors should be shut down. Certainly they must at least be closed through the hearings.
 - 2 - We definitely should not pay more (on top of exorbitant rates already paid) for Con Ed's disastrous mistakes, with potential danger to all of us.

Sincerely
May J. Weber
