Dear Mr Ahern -

In view of the continuing  
problems & danger to health  
& safety, I write to strongly  
urge that all 3 reactors  
at Indian Point, N.Y.  
be shut down & remain  
so permanently! The welfare  
of the stockholders is not  
of importance compared to the  
health, safety of so many  
people.

Sincerely,

Zelda Davidow
