Commissioner Joseph Hendrie  
U.S. Nuclear Regulatory Commission  
1717 H Street  
Washington D.C. 20006

Dear Commissioner Hendrie,

We would like to request that you order to be closed  
without further repairs the nuclear power plant of  
Consolidated Edison in Westchester County , New York,  
called Indian Point #2. We believe you will be holding  
hearings on the safety of the whole Indian Point complex  
and we would like to see this unit remain unpatched  
till then, so that the hearings have some meaning.

Sincerely yours,

  
Ann and Howard Fawcett (Mr. and Mrs.)

1717 H Street  
Washington D.C. 20006

Dear Commissioner Gilinsky,

We would like to request that you order to be closed, pending your winter hearings, the nuclear power plant Indian Point #2 of Consolidated Edison in Westchester County, New York. We do not wish to pay for repairs to a unit in a complex which is too near New York City and which may be closed anyway, as we hope.

Thank you very much.

Sincerely yours,

Ann and Howard Fawcett

Dear Commissioner Bradford,

We would like to request that you order closed, pending your winter hearings, the Indian Point #2 nuclear power plant of Consolidated Edison in Westchester County, New York. We do not wish to pay for repairs to a unit in a complex which does not belong so near New York City in the first place.

Thank you very much.

Sincerely yours,

Ann and Howard Fawcett

U.S. Nuclear Regulatory Commission  
1717 H Street  
Washington D.C. 20006

Dear Commissioner Ahearne,

We would like to request that you order closed the  
nuclear power plant Indian Point #2 of Consolidated  
Edison in Westchester County, New York, pending your  
hearings on the whole Indian Point complex.

Sanctioning repairs makes a mockery of your hearings.

Thank you very much.

Sincerely yours,

  
Ann and Howard Fawcett
