I am glad to hear about Indian Point hearings in White Plains next week. I would like to add my plea in writing to all the others you will be listening to, namely that Indian Point nuclear facility be kept shut down indefinitely. It is an old and tired Nuke.

I beg you not to court a major accident to this Fairfield-Westchester-New York City-Northern New Jersey-Orange County area! I think you must be fully aware that Murphy's Law does and will operate if one risks it long enough.

The story of Three Mile Island is a case in point.

Sincerely,

Louise F. Besson

for United Citizens Against Nukes
and for herself and family
