ATTN. John A HEARNE :

Tues.

RE: Indian Point

In view of the recent occurrences at the Indian Point power plant - I firmly believe it is of the greatest importance to the future of our health and safety to have a permanent shut down of Indian Point's units one and two!

In addition I believe it is also important that Public Hearings be held on the union of concerned scientists petitioned!

I believe you owe it to the public to not only consider but act on these demands. We are watching your response!

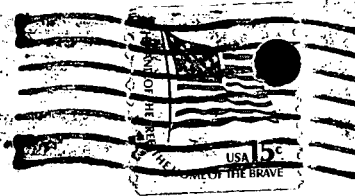

Sincerely,  
Jonell dePoto
