Mr. John F. Ahearne, Chairman  
Nuclear Regulatory Commission  
Washington, D.C.

Dear Chairman Ahearne:

Enclosed you will find a paper written by an engineer  
after inspecting the inside of Indian Point #2 con-  
tainment building.

Since the NRC staff has evidently been watching the  
repairs we assume there is someone who could answer  
this paper, point by point, so we might understand if  
any further changes are planned or not.

Sincerely yours,

*Z. S. Fleisher*  
Z. S. Fleisher  
Secretary

Re: INSPECTION INSIDE CONTAINMENT BUILDING  
INDIAN POINT #2, March 13, 1981.

We thought you would like to read the testimony prepared by our Vice-President, Walter Fleisher, for WESPAC, a party in the Public Service Commission case determining who should bear the cost of \$800,000 a day for the shut-down of the nuclear plant.
