

Bellefonte Nuclear Plant, Units 3 & 4  
COL Application  
Part 2, FSAR

Legend:

- Monitoring Wells
- March Potentiometric Contour
- Investigation area for the 2005 GG&S Evaluation
- NM Not Measured
- Elevations are Feet MSL

Location of BLN  
Units 3 and 4

Feet  
0 250 500 1,000 1,500

**Note:** The March 2005 reading from Well W29 is considered an anomalous reading, and the water level and interpretation of the groundwater elevations in the vicinity of Well W29 depicted in this figure are not considered in current groundwater evaluations.
