CONSOLIDATED EDISON COMPANY - INDIAN POINT NO. 2
DOCKET NO. 50-247

The attached report of inspections of the subject facility on November 4, 5, 24 and 25 is forwarded for information.

The preoperational testing questions discussed in this report have been pursued and are covered in CO Report No. 247/70-12 which has already been forwarded. Resolution of the outstanding issues identified in CO Report No. 247/70-12 is continuing.

As a result of efforts by both Con Ed and Westinghouse, our concerns have been resolved concerning lack of control of electrical cable installation. A number of other outstanding items are also resolved in this report.

A handwritten signature in cursive script, reading "N. C. Moseley", is written over the typed name.

N. C. Moseley
Senior Reactor Inspector
