Jack Matthews
National Security Agency
9800 Savage Road
Fort Meade, MD 20755-6736

Dear Mr. Matthews:

I would like to thank the National Security Agency Information Assurance Directive (IAD) Roadshow team of Gabriel Maznick, Terry Dossey and Leigh Lake for providing a comprehensive perspective of information technology (IT) security awareness to the Nuclear Regulatory Commission personnel. It definitely provided the audience with new insight into the ongoing struggle of defending against various threats and attack vectors used to compromise IT equipment. Your staff should be commended for their outstanding awareness training and professionalism. The demonstration of how an iPhone could be compromised genuinely caught the attention of the audience and is still being briefed at other training sessions.

Again, thank you for providing your IAD Roadshow to the U.S. Nuclear Regulatory Commission and for greatly enhancing our IT Security awareness program.

Sincerely,

/RA Paul Ricketts for/

Patrick Howard, Director
Chief Information Security Officer
Computer Security Office
