Subject: Emergency 2.206 on the Vermont Yankee tritium leak.

Emergency 2.206 on the Vermont Yankee tritium leak.

I request the radioactive leak into the environment of Vermont Yankee be immediately stopped. I demand that Vermont Yankee be immediately shutdown and that all leaking paths be isolated...that the leak be immediately stopped. I request Vermont Yankee disclose their preliminary "root cause analysis" and the NRC releases their preliminary investigative report on this before plant start-up.

Call me anytime!
