#5FR 1418
(H)

Address:
P.O. Box 519
Grayson, GA, 30017
Submitter's Representative: Radiation Safety Officer
Organization: Scan Technologies, Inc.

General Comment

I suggest the NRC provide access to the Sealed Source & Device Registry, if not to the public at large, at least to current licensees. I don't feel there is anything particularly sensitive to security contained in these certificates, and they are of invaluable use to licensees and others working with the manufacture, distribution, service, and purchase of these devices.
