Dear Dr. Thompson:

It has come to our attention that Amendment No. 52 to NRC License No. 24-18655-01 contained an error. In your letter dated July 20, 2009, you requested that Dr. McKinney be listed for 10 CFR 35.300 material, however, the information you provided was incomplete and did not appear to meet the requirements in 10 CFR 35.390. Dr. McKinney's training and experience does, however, meet the requirements in 10 CFR 35.392 for use of sodium iodide-131 in quantities equal to or less than 33 millicuries. Therefore, the enclosed corrected copy of your NRC license No. 24-18655-01 now authorizes Dr. McKinney for 10 CFR 35.300 material limited to sodium iodide-131 in quantities equal to or less than 33 millicuries.

We apologize for any inconvenience this may have caused you.

Sincerely,

  
James R. Mullauer, M.H.S.
