Gentlemen:

The Striped Bass Fund is a new organization devoted to a healthy, natural environment for the striped bass. A description of SBF is contained in the enclosed brochure.

Because many of our immediate concerns focus on utility plants licensed by the AEC (The Indian Point plants, The Oyster Creek Plant, the Surrey Point plant, etc.) we would like to be appraised of all events at these facilities which touch on our area of concern. Specifically, we need to receive reports of all fish kills at any nuclear power plant along the coast.

Sincerely,

Al Reinfelder, President
Striped Bass Fund, Inc.
