Docket No. 50-247

Paul H. Arbesman, Chief
Environmental Impact Statement Branch
Region II
U. S. Environmental Protection Agency
26 Federal Plaza
New York, New York 10007

Dear Mr. Arbesman:

It was indeed a pleasure to meet you and your colleagues on March 21, 1973, and to discuss your concerns regarding the projected impact on the water quality of the Hudson River from the proposed operation of Consolidated Edison's Indian Point Unit No. 2.

Pursuant to our discussion, please find enclosed a copy of "Benefit-Cost Analysis of Alternative Operating Modes for the Period 1973 through 1977" by C. M. Carter, Oak Ridge National Laboratory, February 9, 1973. This document as well as the two documents regarding thermal discharges and biological impact presented to you on March 21, has been submitted as part of the public hearing record for licensing of Indian Point Unit No. 2.

If we can be of further service to you, please feel free to contact us.

Sincerely,
