Regulatory Docket File

Dear Mr. Knighton:

This is in response to your letter of 23 February 1976 addressed to Mrs. Judith T. Conner concerning a draft environmental statement for the selection of a Closed Cycle Cooling System for the Indian Point Nuclear Generating Unit No. 2, Westchester County, New York.

The concerned operating administrations and staff of the Department of Transportation have reviewed the material submitted. We have no comments to offer nor do we have any objection to this project.

The opportunity to review this draft statement is appreciated.

Sincerely,
