Re: Draft Environmental Statement for Facility License Amendment for Extension of Operation with Once-Through Cooling for Indian Point Unit #2. Docket No. 50-247 (Published July 1976)

U. S. Nuclear Regulatory Commission
Washington, D. C. 20555

Attn: Dr. Robert P. Geckler
Environmental Project Engineer

Gentlemen:

The Village of Buchanan is very much in favor for extension of operation with once-through cooling for Con Edison's Indian Point Unit No. 2.

Enclosed is a resolution passed unanimously on Monday, August 23, 1976, by our Board of Trustees and myself, in full support of this extension.

In support of Con Edison's request for the extension, I am enclosing comments of Hugh S. Gregory, Village Consulting Engineer, and a report by William W. Shuster, D.Ch.E., Rensselaer Poly Institute, Troy, New York, on the presence of PCB's (polychlorinated biphenyls) in the Hudson River. It should be called to your attention that there is a ten-year ban on the catching of striped bass in the Hudson River because of the presence of PCB's.

I trust that these comments and the report of PCB's will be of use to the N.R.C. in the final decision, finding the Con Edison request being granted.

Sincerely,

George V. Begany
MAYOR

RESOLUTION

8-27-76

At a regular meeting of the Board of Trustees of the Village of Buchanan, New York, Held at the Municipal Building, Tate Avenue, Buchanan, New York on the 23rd day of August, 1976, at 8:00 o'clock P.M., prevailing time.

Present: Mayor George V. Begany, Trustees Jack Loeber, William Durr, James P. Edgar and William McNally.

Absent: None.

On motion of Mr. William Durr, seconded by Mr. Jack Loeber, the following Resolution was unanimously adopted:

WHEREAS Consolidated Edison has filed a petition with the Nuclear Regulatory Commission requesting an extension of time that the licensee, Consolidated Edison be allowed to operate Indian Point Unit # 2 with the present mode of once-through cooling system from May 1st, 1979 to May 1st, 1981; and

WHEREAS it is opposed to the closed-cycle cooling system which has been ordered by the Nuclear Regulatory Commission at Indian Point Unit # 2; and

WHEREAS the Mayor and Board of Trustees have studied this matter and have received professional opinion concerning this

NOW, THEREFORE, BE IT RESOLVED, that the Village of Buchanan, New York strongly recommends and favors that the Nuclear

The vote on the foregoing Resolution was as follows:

Ayes: Mayor George V. Begany, Trustees Jack Loeber,
William Durr, James P. Edgar and William McNally.

Nays: None.

Absent: None.

I, FRANK R. COLACINI, Village Clerk of the Village of Buchanan, New York, DO HEREBY CERTIFY that the foregoing is a true and accurate copy of the proceedings at a meeting of the Board of Trustees of the Village of Buchanan, New York, duly called, held and conducted on the 23rd day of August, 1976, and of the Resolution adopted at such meeting.

WITNESSETH my hand and seal of said Village this 24th day of August, 1976.

Frank R. Colacini, Village Clerk
Village of Buchanan, New York
