Mr. Edson G. Case, Acting Director
Office of Nuclear Reactor Regulation

Dear Mr. Case

In accordance with the reporting requirements of Section 5.1.1.5 of the Environmental Technical Specifications for Indian Point Unit Nos. 1, 2 and 3, please be advised that as of February 1, 1978, the Assistant Vice President, Power Generation Operation has been deleted from the nuclear environmental monitoring program organization chain. Effective that date, the Manager, Operation Services reports directly to the Senior Vice President, Power Supply for nuclear environmental monitoring program-related matters.

For your information, attached are a revised organization chart and amended page 5.1-1 of the Environmental Technical Specifications reflecting this change.

Very truly yours
