Re: Indian Point Unit No. 2 - Docket No. 50-247  
OL No. DPR-26

Dear Mr. Knighton:

Your letter to my attention dated July 26, 1977 requested copies of the evidence filed by Con Edison and other utilities with Region II of the U.S. Environmental Protection Agency on July 11, 1977. In accordance with your request, we are sending under separate cover 7 copies of those materials that have not already been provided directly to the Staff to Dr. Robert P. Geckler, with 3 additional copies to Dr. Rush. We note that Dr. Webster Van Winkle of Oak Ridge National Laboratory received two copies of this submittal on July 11, 1977 pursuant to the distribution requested by EPA.

Your letter also contained 40 pages of requests for detailed information which we assume were prepared before the Staff had an opportunity to review any of the testimony filed with EPA. Some of the Staff's questions may be answered by the EPA submittal. We are reviewing your requests with a view toward identifying these matters and will furnish the additional information which is not contained in the EPA evidence. We believe it would be useful if your Staff and Con Edison's would meet at an appropriate time after your Staff has been able to review the EPA evidence in order to clarify the additional information necessary for your review.

Sincerely,

William J. Cahill, Jr.  
Vice President
