Steve,

I have confirmed that outage dates should not be made public before the events occur. Please do not release the outage month publicly, it is confidential to Luminant. I will try to be more careful to identify such information in my emails in the future and thanks for catching it.

Donald R. Woodlan

Don,

that date will work. Can this email be made public with the outage month listed? All emails are placed in hearing file.

thanks,

Stephen Monarque

Subject: 2010-01-13 Site Security Visit - Request to reschedule to mid to late May 2010

Steve,

You mentioned on last weeks COLA conference call that the NRC was planning a site security visit for xxxx 2010. Some support from the Luminant security staff will be needed to support the NRC visit. Because we have an outage planned for xxxx and much of the security staff is involved in the outage support, we request that the site visit be rescheduled for mid to late xxxx. We can discuss further during the COLA conference call in 1/15.
