Docket No. 50-247

ENVIRON, FILE (NEPA)

Mr. C. M. Carter
Team Leader - IP-2
Environmental Projects
Oak Ridge National Laboratory
P. O. Box X
Oak Ridge, Tennessee 37830

Dear Mitch:

Please find enclosed a status report on Indian Point Unit No. 2 including a schedule for commitments regarding the hearing. Also enclosed is a sample for use to list transcript corrections. Only carry out corrections of sections where you and the team members have been involved. I will correct sections that Ed Lyle and M. Karman cross examined the witnesses.

I left with D. Rush copies of sample Findings of Fact and Conclusions of Law and other material from Vermont Yankee. As each of you goes through the transcript, you should flag the pages where one can select factual material for the FF and CL for IP-2. I believe, however, much of the factual evidence we will use will be from the FES and the individual pieces of testimony Phil, Moske, and you have prepared.

Regarding Environmental Tech. Specs. please send to me any comments you have on the Con Ed version. As I told you yesterday, I am rewording the Con Ed ETS to have a draft ready for the meeting with Con Ed on May 18, 1973. If at all possible I would like to have Phil and Moske participate in that meeting and thus would like to meet with them prior to that date to be sure we present a solid position on the ETS. I am also considering arranging to have a meeting with the NYS Department of Conservation but I plan to coordinate our position before we discuss matters with outside agencies or the intervenors.

If you have any questions, please let me know at once. Time is of essence. No doubt we will be spending most of the week of May 22 at ORNL working over Con Ed's proposed Findings of Fact and Conclusions of Law due May 17, 1973.

Sincerely,

(6)

Fig
