Docket No. 50-247

OCT 18 1972

Dr. William Yee
Environmental Reports Project
Oak Ridge National Laboratory
P. O. Box X
Oak Ridge, Tennessee 37830

Dear Bill:

This is to express my sincere gratitude to you and your team members for the outstanding job you have done in preparing the Draft and Final Environmental Impact Statements for Indian Point Unit No. 2. The two volume edition sets a precedent in the endeavor of impact statements. I assure you that your tireless efforts have been greatly appreciated here in the AEC. Please pass on my deep appreciation to all your team members and the many others who assisted you in their work.

On October 6, 1972, I transmitted to you under separate cover transcripts of the ASLB hearings on April 5, 1972, and June 19 and 20, 1972. I already sent you transcripts of the January 11-12 and May 17-19, 1972 hearings.

Myron Karman and I plan to visit you and your team members at ORNL on November 1, 2, and 3, 1972, for preparation of the upcoming hearings. Please inform me if these dates are suitable for you.

I hope you have received the 25 extra copies of the FES you requested. Please let me know by October 30, 1972, of any corrections in the text you may find so I can prepare an errata sheet for the FES.

In addition, I am requesting Con Ed to send in a proposed Tech Specs for a 100% power operating license. This set of Tech Specs should be more specific and more detailed compared with those for the testing license.
