TECHNICAL ASSISTANCE REQUEST - TECHNICAL SPECIFICATIONS ON ENVIRONMENTAL MATTERS FOR TESTING UP TO 50% POWER FOR INDIAN POINT UNIT NO. 2

Technical assistance from Site Safety is requested on the following Plant.

Name: Indian Point Unit No. 2
 Status: Testing License up to 50% power
 Docket No. : 50-247
 Branch: EP-1
 Project Manager: M. J. Oestmann

The ASLB as of July 14, 1972 has issued an Initial Decision on the applicant's motion for testing up to 50% power to authorize the Director of Regulation to issue a license up to 20% power and to defer the balance up to 50% power to the Commission. The issuance of this license requires completion of Technical Specifications on Environmental monitoring.

On June 20, 1972, the applicant reviewed with the staff the proposed Environmental Technical Specifications prepared by the staff after receipt of an earlier rough draft sent to the AEC from the applicant. On July 5, 1972 the applicant submitted a second proposed Technical Specifications. A meeting will be held with the applicant on July 27, 1972 to discuss their second proposal.

Your assistance is requested for the review and evaluation of the applicant's submittal. We suggest that the review be performed by the Technical Specialists Branch of the Directorate of Licensing.
