Dear Hanson:

This will confirm our telephone conversation of January 17 concerning the comments in the report by the Belgians on the Indian Point Nuclear Generating Unit No. 3.

As mentioned, we see no objection to your requesting a response direct from the Consolidated Edison Company to the questions raised by your consultants. Further, we would be happy to discuss the report, or the project, with you informally at any time.

Best regards,

Peter A. Morris, Director  
Division of Reactor Licensing
