

Docket No. 50-286

NOV 10 1971

Consolidated Edison of New York, Inc.
ATTN: William J. Cahill, Jr.
Vice President
4 Irving Place
New York, New York 10003

Gentlemen:

It is requested that your application for an operating license for the Indian Point Nuclear Generating Unit No. 3, be amended to include the specific additional information listed in the enclosure.

We recognize that some of this information may already have been placed in the public record in the context of our review of similar features of other facilities. To the extent applicable, you may incorporate such information in your application by reference.

As in our August 13, 1971 request, the additional information requested by this letter is numbered and categorized to correspond directly to like numbered sections in your application. In responding to our requests you are encouraged to provide the information by revising existing pages of the Safety Analysis Report rather than by submitting the information in a separate supplement. In any event, your amendment that provides this information should identify each response with each request.

Please contact us if you desire any discussion or clarification of the material requested.

Sincerely,

Original signed by
