REGULATORY DOCKET FILE COPY

Mr. Ben Rusche
Director, Nuclear Reactor Regulation
U.S. Nuclear Regulatory Commission
Washington, D. C. 20555

Dear Mr. Rusche:

The Power Authority of the State of New York (PASNY) has indicated a desire to file with the Commission an Application for Amendment to Operating License DPR-64 to permit the assumption of full operating responsibility for the Indian Point Unit No. 3 Nuclear Power Plant. Consolidated Edison Company of New York, Inc. (Con Edison), as co-licensee, presently has responsibility for operation of that plant.

Con Edison hereby consents to such filing. We will cooperate in good faith to resolve any problems of separation of operating and administrative responsibility under the Technical Specifications between Units 1 and 2 on one hand and Unit 3 on the other.

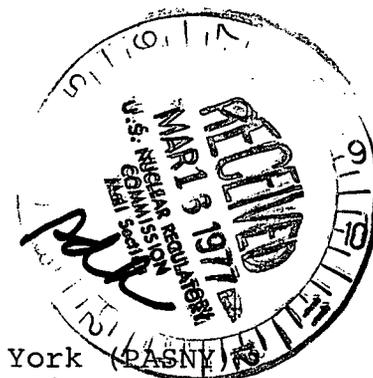

Very truly yours,

William J. Cahill, Jr.
Vice President
