Dear Mr. Rusche:

As attorneys for Consolidated Edison Company of New York, Inc. and Power Authority of the State of New York, co-holders of Facility Operating License No. DPR-64, and in accordance with 10 C.F.R. § 50.90 (1976), we hereby transmit three (3) signed originals and forty (40) copies of a document entitled "Application for Amendment to Operating License," sworn to on November 8, 1976. This amendment would alter the Technical Specifications to provide for written notification to the Commission in the event there are changes in the Facility Management and Technical Support Organization or in the Facility Organization, or modifications in the job titles of any of the members of the Station Nuclear Safety Committee. It also reflects certain pending organizational changes, including the membership of the Station Nuclear Safety Committee.

A certificate of service is attached.

Very truly yours,
