Dear Mr. O'Reilly:

Two copies of a report entitled, "Startup Test Report- Indian Point Nuclear Generating Unit No. 3" were submitted to you by letter dated November 26, 1976. With the completion of the Generator Net Output test and the One Hundred Hour Acceptance test on May 27, 1977, all of the tests in the startup program for Indian Point 3 have now been concluded.

The results of the May tests have been evaluated and were found to be acceptable. Two copies of revised pages discussing these results are included as ATTACHMENT A for incorporation into the November 1976 report.

Very truly yours,

*William J. Cahill, Jr.*
