Dear Mr. Schwencer:

The Power Authority of the State of New York hereby transmits three (3) originals and nineteen (19) copies of an Application for Amendment to Operating License, and forty (40) copies of attachments thereto, intended to modify the inspection requirements of the Primary Coolant System Pressurizer.

The Authority has classified this application for amendment to the operating license as Class III, as it involves the single issue of the revised technical specifications. Enclosed is a check in the amount of \$4,000 as the filing fee per 10CFR §170.22 which the Authority pays under protest pending a final determination of the legality of the fee schedule.

Very truly yours,
