Subject: Indian Point 3 Nuclear Power Plant  
Docket No. 50-286

REGULATORY DOCKET FILE COPY

Dear Sir:

Enclosed for filing are three (3) signed originals and  
nineteen (19) copies of a document entitled "Application  
for Amendment to Operating License", and attachments thereto.

This application seeks to amend Technical Specification  
3.8.C.2, Load Limits over the Spent Fuel Pit, of Appendix A  
to Facility Operating License DPR-64. These changes are  
intended to assure that the requirements of 10CFR50, App.G,  
for the fracture toughness testing of materials be met with  
a minimum of personnel exposure.

The Authority has classified this application for amend-  
ment to the operating license as Class III, as it involves  
the single safety issue of the revised load limit. Enclosed  
is a check in the amount of \$4,000 as the filing fee per  
10 CFR Section 170.22, which the Authority pays under protest  
pending a final determination of the legality of the fee  
schedule.

In support of this application, we are enclosing forty (40)  
copies of the Safety Evaluation corresponding to this pro-  
posed Technical Specification change.

Very truly yours,

*George T. Berry*
