Dear Sir:

Enclosed for filing are three (3) originals and nineteen (19) copies of a document entitled "Supplement No. 1 to Application for Amendment to Operating License for Cycle 2 Power Control Maneuvers", and attachments thereto.

This supplement seeks to modify our April 7, 1978 submittal (IPO-66) concerning Technical Specification §3.10.2, Power Distribution Limits, of Appendix A to Facility Operating License DPR-64, and to modify the appropriate safety evaluation parameters. These modifications to our proposed changes are required to insure that the design and safety evaluation conclusions stated in IPO-66 remain valid.

Very truly yours,

George T. Berry
General Manager and
Chief Engineer
