Re Consolidated Edison Company
of New York, Inc.
Indian Point Unit No. 3
AEC Docket No. 50-286

Mr. R. C. DeYoung
Assistant Director for
Pressurized Water Reactors
Directorate of Licensing
U. S. Atomic Energy Commission
Washington, D. C. 20545

Dear Mr. DeYoung

Mr. Spector has advised us that a final version of each safety-related electrical drawing reviewed as part of the Indian Point Unit No. 3 operating license application would have to be formally submitted. It is our understanding that seven (7) copies of non-proprietary drawings and three (3) copies of proprietary drawings would satisfy the submittal requirements.

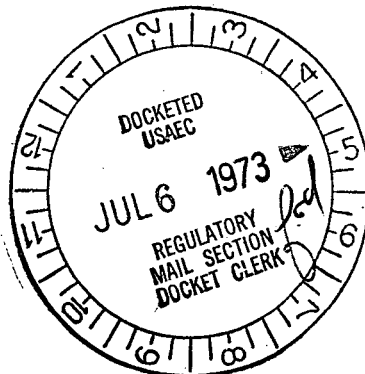

Accordingly, enclosed please find seven (7) copies of the drawings listed in Enclosure 1. This submittal represents approximately eighty percent (80%) of the total number of drawings reviewed. Final versions of the remaining drawings will be available by July 16, 1973.

Very truly yours
