

**Void Sheet**

TO: License Fee Management Branch  
FROM: Jose Macatangay  
SUBJECT: VOIDED APPLICATION

Control Number: 318583

Applicant: Occidental Chemical Corporation

License Number: 21-17772-01

Docket Number: 030-13298

Date Voided: 01/11/2010

Reason for Void: Received response to deficiency on 01/07/2010. However this response was still not adequate for the non-routine maintenance operations training for personnel, i.e. did not have documentation indicating that the licensee's internal training was equivalent to the manufacturer's non-routine maintenance operations training, did not specifically name individuals to perform non-routine maintenance, and needed to clarify that removal of fixed gauge is also considered non-routine maintenance. I discussed these with the Jim Glover, RSO, and indicated that I would void this action without prejudice should he want to pursue this action in the future. He agreed with the void.
