Dear Mr. Grier:

In order to comply with I.E. Bulletins 79-05C and 79-06C, the Power Authority, as a member of the TMI Incident Owners Group, has authorized Westinghouse to perform the analysis required by the second short term action. We expect to receive the results of this study on the response due date of 8/30/79.

In light of this, additional time is needed to answer the bulletin. The response for the short term items #2 and #3, as well as the long term item #1, is expected to be completed by 9/10/79. This will allow us to effectively evaluate the results of the Westinghouse study and to incorporate appropriate guidelines into our operating procedures.
