

February 2, 2010

Ms. Eliana Amaral, Director
Division of Radiation, Transport and Waste Safety
International Atomic Energy Agency
Vienna International Center
P.O. Box 100
1400 Wien, Austria

Dear Ms. Amaral:

The U.S. Nuclear Regulatory Commission (NRC) is pleased to invite you, or your designee, to attend the public forum on the International Basic Safety Standards (BSS), sponsored by the U.S. Interagency Steering Committee on Radiation Standards. We understand that due to a previous engagement you are unable to attend the public forum and have recommended Mr. Trevor Boal as your designee.

The forum will be held February 26, 2010, at the auditorium of the NRC. The forum is intended to provide a public opportunity for stakeholders within the United States (U.S.) to learn about the draft BSS, as published for International Atomic Energy Agency Member State review, and provide feedback which will be used by the U.S. Federal Agencies as one source of input in developing the U.S. member state comments on the BSS.

We request Mr. Boal's participation in the forum to introduce and overview the BSS. This presentation will serve to provide the initial context and overview for the forum, and the discussion of the document which will follow. We would also welcome his participation throughout the forum.

Please contact Ms. Jennifer Schwartzman, NRC Office of International Programs, telephone 301-415-2317, email Jennifer.Schwartzman@nrc.gov with Mr. Boal's intention to participate in the forum, or with any questions related to the forum.

We look forward to seeing you at the forum.

Sincerely,

/RA/

Martin J. Virgilio
Deputy Executive Director for Materials, Waste,
Research, State, Tribal, and Compliance Programs
Office of the Executive Director for Operations
