

May 18, 1972

Robert Tedesco, Assistant Director for Containment Safety, L

TECHNICAL REVIEW OF HYDROGEN CONTROL SYSTEMS

In response to R. W. Sliger's memorandum of April 19, 1972, the technical information necessary for the safety review of the hydrogen control systems for the plants listed below has been provided to the Containment Systems Branch (CSB):

- Aguirre-1
- Arkansas-1
- Calvert Cliffs 1-2
- Cook 1-2
- Crystal River
- Forked River
- Indian Point-3
- North Anna 3-4
- Oconee 2-3
- Prairie Island 1-2
- Rancho Seco
- Salem 1-2
- Shearon Harris
- Summer-1
- Three Mile Island-1
- Waterford-3
- Watts Bar 1-2

The CSB reviews should be performed on the schedules approved by Management for the respective plants as shown in the Regulatory Licensing Applications, Progress Summary Report (planned to be issued during the week of 5-22-72).
